Ho-ho-ho, Good morning, Yesterday we started the Special Inspection in Zevenaar. I got confirmation that the process is running smoothly. This means that 1. Less orders will be sent to DC from Zevenaar for this purpose and 2. the ECP's will gain one day leadtime. Best regards,

Pedro

Dear Colleagues, In absence of Nancy Segers, I removed for all red lines the Special Inspection. Only 5 are now marked. Note that it became active 5 minutes ago for all NEW orders that will enter our LW-system.

Best regards, Pedro

Hi Pedro, Kan jij de systemen aanpassen dat enkel de special inspection, green, overblijven.
